The Bingo Bugglebee Presents Series

Bingo Bugglebee Presents is a series of learning programs children will want to play with again and again. These play-and-learn programs have earned rave reviews from teachers, parents, and children alike. The following software packages are available in the **Bingo Bugglebee Presents** series:

- **Bingo Bugglebee Presents: Find the Rhyme.** This program provides practice in distinguishing rhymes and look-alike words. The package includes one game disk. Level: Grades 1-4.

- **Bingo Bugglebee Presents: Famous People.** This program introduces children to the men and women who shaped our world. The package includes one game disk. Level: Grades 3-6.

- **Bingo Bugglebee Presents: Home Alone.** This single-disk package alerts children to many of the common situations they face when they are home without adult supervision and suggests possible ways to cope with the situations. It's a great way to introduce and reinforce safety concepts. Level: Grades 3-7.

- **Bingo Bugglebee Presents: Outdoor Safety.** This program helps children learn how to cope with events and situations they commonly find in outdoor settings, from their back yard to beaches and woods to city streets. The package includes one game disk. Level: Grades 3-7.

- **Bingo Bugglebee Author Kit.** This program allows individuals to create their own **Bingo Bugglebee Presents** games on any subjects they choose. The kit includes a Game Editor Disk, two Game Shell Disks, and an Author's Guide that describes the simple steps for making a game. Level: Grade 5 to adult.

All of these programs run on the Apple II+, IIe, and IIc, with a minimum of 48K memory and one disk drive. The **Bingo Bugglebee Presents** series is also available for the Commodore 64 and 128.

For more information about these products, see your software dealer or write or call Quest Learning Systems, Inc., at 1103 Homer St., St. Paul, MN 55116, (800) 328-8322, Ext. 417.

WE THINK KNOWLEDGE IS THE STUFF GAMES ARE MADE OF

At Quest, we believe that people of all ages perform at their highest potential when they're enjoying themselves. That's what games are for. And that's why learning is easy when it becomes a game. Acting on this philosophy, Quest has developed the following educational games.

The La Triviata Series

Trivia buffs with computers want more than a board game. What they're after is a trivia program that makes the most of being computerized. That's **La Triviata**. Quest offers these software packages in the **La Triviata** series:

- **La Triviata.** This is the master **La Triviata** package and includes the **La Triviata** Game Disk and Question Disks 1 and 2. The questions are in seven general-knowledge categories: history and geography, the arts, science and math, sports and games, media and personalities, philosophy and religion, and miscellany.

- **More La Triviata/3.** This package includes Question Disk 3 filled with questions in the same seven categories as Question Disks 1 and 2. **More La Triviata/3** must be used with the **La Triviata** Game Disk.

- **More La Triviata/4.** This package contains Question Disk 4, which is filled with questions in the same seven categories as Question Disks 1, 2, and 3. **More La Triviata/4** must be used with the **La Triviata** Game Disk.

- **More La Triviata/Sports.** This package includes a Question Disk that contains questions in seven sports categories: football, baseball, basketball, golf, hockey, boxing, and sports miscellany. **More La Triviata/Sports** must be used with the **La Triviata** Game Disk.
